THE STORY

The moment you stop running from what you feel — done hiding, done bracing, just letting it hit you whole.

Hiding From It All

VERSE

I was running through the silence in my head
Every word I never said stayed instead
Tried to hide it, tried to bury every sign
But it kept on coming back every time

PRE-CHORUS

Now I feel it in the space between the sound
Like a pulse I never knew I found
Every second pulling me inside
There's no way to turn or hide

CHORUS

I don't wanna lose this moment now
Even if I don't know how
Let it hit me, let it take control
I've been waiting for this all
I don't wanna fall back down again
To the place I've always been
If this breaks me, let it break me whole
I'm done hiding from it all
I'm done hiding from it all
I'm done hiding from it all

VERSE 2

Now I'm standing where the silence breaks
Every step feels like a risk I take
No more hiding in the space between
I can feel what it really means

BUILD

Let it rise, let it take me higher
Through the noise, through the fire
I'm not running anymore tonight
I'm alive, I'm alive

CHORUS

I don't wanna lose this moment now
Even if I don't know how
Let it hit me, let it take control
I've been waiting for this all
I don't wanna fall back down again
To the place I've always been
If this breaks me, let it break me whole
I'm done hiding from it all
